Alliance For Long Term Care Quality Improvement

June 25, 2013

Wynfrey Hotel – Birmingham, Alabama

Registration – 7:30 to 8:30 AM

Program – 8:30 AM to 4:00 PM

Lunch – On Your Own

Join ANHA as we present a full-day seminar for long-term care providers on fall prevention, using a root cause analysis approach. Participants will be introduced to The Empira Fall Prevention Program which is a combination of nationally- recognized evidence-based, fall prevention practices and practical applications from the most recent research findings. Empira’s program advocates for a restraint-free, alarm-free, correct bed heights and no-floor mats environment, indicating many common past best practices are no longer considered a best practice.

This in-depth seminar will cover the implementation of a comprehensive fall prevention and reduction program. At its completion, attendees will be able to:

- Gain insights from lessons learned negotiating the implementation of a program that tests the current practices for fall prevention within the long-term care provider community.
- Recognize the importance of starting your own program with the initial and continuous investigation into the root cause(s) analysis of a fall.
- Examine effective and ineffective fall prevention strategies and interventions.
- Identify the development of new responsibilities for all departments.
- Create a comprehensive in-house educational program.
- Audit and monitor the ongoing operational system to insure compliance and redundancy.
