White House Chef Headlines ANHA Annual Convention & Trade Show

White House Chef Walter Scheib will headline ANHA's 2014 Annual Convention & Trade Show. Chef Scheib served as White House Executive Chef to Presidents Bill Clinton and George W. Bush. He will treat attendees at ANHA's Dinner/Dance to a First Family style meal and tell inside stories from his 11 years working in the White House.

Chef Scheib has appeared on Food Network's [Iron Chef](#) and Comedy Central's [The Daily Show](#). You can learn more about Chef Scheib at his [website](#).

The meal and presentation will be followed by dancing with a DJ from [Feel the Beat Entertainment](#).

The convention also features educational seminar on timely and relevant topics, social gatherings and Alabama's largest long term care trade show.

Register now for the 2014 ANHA Annual Convention & Trade Show. The convention will be held September 15-18 at the Hyatt Regency Birmingham – The Wynfrey Hotel. The trade show is September 16. *See the attached brochure for more information.*

Medicaid Cost Reports Due September 15

The Alabama Nursing Home Association is collecting Medicaid cost reports for analysis by our independent reimbursement consultant, Dave Bishop. As in the past, our reimbursement consultant will provide you a detailed analysis of your costs compared to the costs of other facilities of a similar size. ANHA cannot stress enough the importance of sending in your cost report. In order to negotiate with Medicaid on various issues, we need to have accurate information concerning the profession. This information has proved very beneficial in the past.

Please send a copy of your 2013 Medicaid Cost Report to kmagdon@anha.org or by mail to:

NATIONAL NEWS

CMS Issues Hospice Payment Rate Update

The Centers for Medicare and Medicaid Services (CMS) recently published updates to hospice payment rates, hospice caps, the hospice wage index, the hospice quality reporting program, and the hospice pricer for fiscal year 2015.

The updates apply to providers submitting hospice claims to Medicare administrative contractors (MACs) for services provided to Medicare beneficiaries.

Tramadol Update

Please be advised that as of August 18, 2014, Tramadol (Ultram, Ultracet) is now classified as a Schedule IV Controlled Substance. *The Drug Enforcement Agency (DEA) announcement, Board*

of Pharmacy announcement, and the DEA Federal Rule are attached in a combined document for your review.

CMS SNF/LTC Open Door Forum Excerpt: COT OMRA & RAI Manual Update

During the August 5, 2014, SNF/Long-term Care Open Door Forum, the Centers for Medicare and Medicaid Services (CMS) officials addressed the Change of Therapy Other Medicare Required Assessment (COT OMRA) change associated with the FY 2015 SNF PPS Final Rule.

This changes allows providers to use the COT OMRA “to reclassify a resident into a therapy RUG from a non-therapy RUG, but only in certain limited circumstances,” stressed officials during the ODF. “More specifically, a COT OMRA may be completed when a resident is not currently classified into a RUG-IV therapy group but only if both of the following conditions are met: First, that the resident has been classified into a RUG-IV therapy group on a prior assessment during the resident’s current Medicare Part A stay, and second, that no discontinuation of therapy services, planned or unplanned, occurred between day 1 of the COT observation period for the COT OMRA that classified the resident into his or her current non-therapy RUG-IV group and the ARD [assessment reference date] of the COT OMRA that reclassified the resident into a RUG-IV therapy group.”

CMS officials noted that a required condition in this policy is there can be no discontinuation of therapy services, planned or unplanned, that occurred between day 1 of the COT observation period for the COT OMRA that classify the person into the non-therapy RUG and the ARD of the COT OMRA that reclassified the resident into a therapy RUG.

COT OMRAs that are completed under this new policy should be treated like any other unscheduled assessment, said officials. “All of the rules that would apply to that unscheduled assessment, whether they be rules of combination, rules associated with early and late penalties, etc., all of those should be considered to apply.” In addition, this revision “does not have any impact on the other OMRAs within the SNF PPS. The rules and policies associated with all other assessment types remain the same,” according to the final rule.

The FY 2015 final rule goes into effect October 1, 2014. CMS will issue a transition memo to explain how the COT OMRA change will be implemented. CMS advised this memo will be posted soon on the SNF PPS Spotlight page located at <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/SNFPPS/Spotlight.html>.

RAI Manual update

CMS officials announced the next update to the RAI User’s Manual for the MDS 3.0 “is on track” for release “on or about” September 5, 2014. The revision will be posted at the agency’s official RAI Manual page at <http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/NursingHomeQualityInits/MDS30RAIManual.html>. Providers should expect to see more details about the revised COT OMRA policy in this manual update.

Path to Excellence: Person-Centered Care

Person-centered care promotes choice, purpose and meaning in daily life. Person-centered care means that nursing home residents are supported in achieving the level of physical, mental and psychosocial well-being that is individually practicable. The Advancing Excellence (AE) person-

Page 4 of 8

centered goal honors the importance of keeping the person at the center of the care planning and decision-making process. Care plans are living documents that are revised to reflect a person's changing needs. Through person-centered care, staff places a premium on active listening and observing, so staff can adapt to each resident's changing needs regardless of cognitive abilities.

The AE website offers a person centered care tracking tool. The tool can be found at: <https://www.nhqualitycampaign.org/goalDetail.aspx?g=PCC#tab2>. The person centered care tracking tool can be utilized to log results from residents' Preference Satisfaction Interviews and record how their subsequent care plans address those preferences. The tool creates graphic displays indicating opportunities to fulfill residents' preferences, evaluate community trends, and calculates an overall Preference Congruence Quality Indicator and the percent of care plan meetings with key participants.

Medicaid Alert Released: Handling Funds Following the Death of a Medicaid-Eligible Resident

Medicaid has released a new Alert that replaces the Alert dated November 21, 2013, in regards to handling funds following the death of a Medicaid-Eligible resident. The purpose of the alert is to clarify the procedures associated with handling funds following the death of a Medicaid-eligible nursing home resident.

42 CFR § 483.10(c)(6), the Medicaid Administrative Code 560-X-10.-14(3)(f) and 560-X-22-.25(5)(e) and the Social Security Administration Guide for Representative Payees require that nursing homes, upon the death of a resident, release any funds being held at the facility in the resident's name to the individual or probate jurisdiction designated to administer the deceased resident's estate.

Attached is a copy of this alert as well as a newly developed **Administrator of Estate Designation Form** which will provide a resident the opportunity to designate who should receive the remaining personal funds.

Upon the death of the resident, the completed form in the patient's record will allow a nursing home facility to turn over any remaining funds to the designated Administrator of the Estate. The designated administrator may utilize these funds for the payment of burial expenses or for some other use; however, the administrator should be made aware that any remaining funds left to the estate may be subject to Medicaid estate recovery, pursuant to 42 USC § 1396p. *For more information, refer to the attached Medicaid Alert and Administrator of Estate Designation Form.*

ePOC Update from the Alabama Department of Public Health

As of last week the Alabama Department of Public Health (ADPH) has 176 facilities enabled and activated to use the ePOC (electronic plans of correction). If you are not signed up please do

so as soon as possible. If you need assistance with signing up please contact Pamela Carpenter, RN or Mia Sadler, RN at 334-106-5111.

Medicaid Check Write Schedule for FY 2015

The release of funds is normally the second Monday after the check write (remittance advice) date. Please verify direct deposit status with your bank. *As always, the release of direct deposit and checks depends on the availability of funds.*

Track Hospitalizations with Advancing Excellence Tracking Tools

The Advancing Excellence (AE) hospitalization tracking tools allow you to document your work, monitor outcomes and processes related to those outcomes. Data-driven quality improvement projects require ongoing data collection and analysis. It is important to start collecting data to establish a solid baseline and set a target for improvement. Keep your workbook up-to-date on a daily or weekly basis and look at data often to support a rapid cycle quality improvement project.

This website <https://www.nhqualitycampaign.org/goalDetail.aspx?g=hosp#tab2> allows you to download the data tracking tool.

Clinical Practice Guidance for Care Transitions

The American Medical Directors Association (AMDA) has released The Transitions of Care in the Long-Term Care Continuum guide which focuses on transitions of care which may occur within care settings, between care settings, across health states and between providers. This Clinical Practice Guideline is a useful resource that contains seven steps for implementation of a care transition program. Also included in this guide are sample policy and procedure for care transition, suggested common or essential elements for medication reconciliation, hospitalist checklist for an ideal discharge of the elderly patient and quality indicators for transitions between nursing facilities and emergency departments.

Transitions of care are common and it is critical to ensure appropriate measures are in place to support quality of care and quality of life for the individuals experiencing the transitions.

To access the Transitions of Care in the Long-Term Care Continuum Clinical Practice Guideline from AMDA please visit <http://www.amda.com/tools/clinical/toccpg.pdf>

Boost Your CEU Count with Constituency Education Programs at the AHCA/NCAL Convention

In about two months, thousands of long term and post-acute care professionals along with speakers, professional and peer educators, leaders and exhibitors from across the country will convene at the Gaylord Resort & Convention Center, just outside Washington, D.C., for the AHCA/NCAL 65th Annual Convention & Expo.

If you haven't registered yet, advance registration continues through September 9. After this date, on-site registration and rates apply.

In addition to this year's general and daily education sessions, attendees can boost their CEU count by attending one of several specialized Constituency Education programs. These programs target key topics and are ideal for specific audiences:

- Assisted Living Professionals: 8th Annual NCAL Day
- ID/DD Providers: Leading the Charge for Compassionate Care: A Day for Intellectual and Developmental Disabilities Residential Services Providers
- Rehabilitation Therapists, Clinicians, Nurses, Administrators, Billing/Reimbursement Specialists, and Contract Therapy Executives and Providers: The Critical Role of Rehabilitation Therapy in the SNF PPS, Post-Acute Reform, and Long Term Care
- Procurement Professionals: Procurement Professional Symposium
- NFP Providers: Living the Mission: A Day for Not for Profit Providers
